

## **(Child Friendly Version of our Safeguarding Policy)**

This policy is to help you decide what could be a problem and where to get help and support.

All of the adults around you think that your health, safety and welfare are very important.

In our school, we respect all children and adults, and help to protect their rights.

We do our best to help all children make good educational progress.

Children are taught how to recognise risks in different situations, and how to protect yourselves and stay safe.

### **How are children protected at Water Street School?**

We provide a safe environment for children to learn in.

We help to ensure that children remain safe, at home as well as at school.

We think it is important for our children to know where to get help if they are worried or unhappy about something.
